## **Family Emergency Preparedness**

### **Clackamas County Emergency Notification System (CCENS)**

Being informed is one of the cornerstones of emergency preparedness. CCENS is your direct link to critical information during a disaster. In the event of an emergency in our area, the CCENS warning system will send emergency messages and instructions to your landline, cell phone and email. All landline numbers are already in the system. It is free and takes only minutes to sign up!

**You can register to have messages sent to your cell phone  
and email by going to:**

**[www.clackamas.us/emergency/ccens.html](http://www.clackamas.us/emergency/ccens.html)**
